

Akki Sharma

I'm actively seeking opportunities in the field of full-stack development. I have a strong background in both front-end and back-end technologies and am eager to contribute my skills and experience to a dynamic team. Please feel free to reach out if you h

About me

I am a young and dedicated programmer, driven by a passion for software development and a strong desire to continuously enhance my skills. Despite being only 15 years old, I have actively engaged in numerous projects to develop my expertise. My goal is to channel this experience and knowledge into real-world applications, where I can collaborate with dynamic teams to create innovative solutions. I am committed to the pursuit of excellence in programming, eager to contribute my abilities to impactful projects, and excited to embark on a promising journey in the world of technology.

Experience

- Over three years of full-stack development experience, encompassing front-end and back-end technologies.
- Proficiency in game development using Unreal Engine and Unity, with approximately eight months of hands-on experience.
- Strong grasp of the Model-View-Controller (MVC) architectural pattern, applied in various projects for six months.
- Commitment to continuous learning and professional growth in programming.
- Enthusiastic about contributing expertise and collaborating with innovative teams to deliver outstanding software solutions.

Online Courses

Professional Development Courses (Udemy):

Advanced CSS and SASS

In-depth exploration of advanced CSS techniques and SASS for enhanced web design.

Design and Develop a Killer Website with HTML5 and CSS3

Mastery of modern web development using HTML5 and CSS3 for compelling websites.

Complete C# Masterclass

- Comprehensive training in C# programming for versatile application development.

Web Projects with Vanilla JavaScript

Practical experience in creating web projects using pure JavaScript.

The Complete JavaScript Course

Thorough coverage of JavaScript fundamentals and advanced concepts.

React Front to Back 2022

- Expertise in React.js for building dynamic and responsive web applications.

Modern HTML & CSS from the Beginning

Proficiency in modern HTML and CSS techniques for cutting-edge web design.

Unreal Course

Specialized training in Unreal Engine for game development.

The Ultimate React Course (In Progress)

Ongoing pursuit of mastery in React.js, a key technology for modern web applications.
